

PolySoft CLEANER

DESCRIPTION:

PolySoft CONCENTRATED CLEANER is a non-caustic amine based detergent concentrate especially designed for removing body oils and sunscreen residues prior to commencing any specialised cleaning on PolySoft surfaces. This cleaner is also designed to use as an initial step to more specialised cleaning applications which may include mineral or organic acid washing for the removal of tannin stains, rust stains, calcium, magnesium salts and mould/algae growth.

APPLICATION:

The **PolySoft CONCENTRATED CLEANER** is added to warm water prior to use. 500 mL of concentrate will make up to 20 Ltrs of wash solution, 5 Ltrs of concentrate will make up to 200 Ltrs of wash solution.

For use over normal wetted surfaces, the incoming water supply should be shut off. Use a medium-stiff broom to scrub the PolySoft surface, paying particular attention to corners and other difficult to reach surfaces. Finally rinse well with clean water and allow drying prior to commencing any other cleaning procedure.

PACKAGING:

Available in 500 mL, 5 Ltr and 20 Ltr packs.

PRECAUTIONS:

- Risk-irritation to eyes and skin. In case of contact, rinse immediately with water.
- Wear suitable gloves and protective eye wear.
- Spills and disposal-slippery when spilled. Wear protective skin and eye equipment.
- Contain any spill of concentrate-prevent contamination of drains and waterways. Use absorbent material to contain.
- Refer to MSDS for more details.

FIRST AID:

- Ingestion-rinse mouth thoroughly with water and give water to drink. DO NOT induce vomiting.
- Skin-wash with soap and water and rinse thoroughly. Remove contaminated clothing and wash before re-use.
- Eye-Immediately irrigate with copious quantity of water with the eyelids held open. We recommend seeking medical advice in all cases of eye exposure.
